

Job Cost Reporting:

The Job Cost Reporting module records detailed charges against jobs within a work order and culminates in a customer invoice. This system also prints estimates.

The Job Cost Reporting module is fully interfaced

Features of the Job Cost Reporting system include:

- Printing of job estimates.

- Multiple jobs per work order.

- Customer invoicing.

- Cost vs retail comparison reporting.

- Posting of labor to payroll.

- Automatic inventory reduction.

- Work order and job inquiry.

- Pre-billing worksheet for edit prior to billing.

- Scrolling tables for easy lookup and viewing of information
